Installation Instructions for 07-11 Chevrolet & GMC Silverado/Sierra Ext. Cab (New Body Style) Underseat Storage

Installation Instructions:

- 1 Flip up the rear seats.
- 2 Thread the nylon straps through the seat belt brackets (Seat belt brackets are located on the bottom of the seat belt, under the rear seat, on top of the ledge.) by sliding each strap through the backside of the brackets/seat belts so the buckle ends up on top.
- 3 Under the rear seats you will have a jack tools bag. Turn the wing nut on the jack tools bag counterclockwise and remove the wingnut & metal bracket. Remove jack tools bag and set aside.
- 4 Position the DU-HA under the rear seats with cut out slots facing towards the truck bed. Make sure the seat belt is not under the DU-HA. If it is, simply pull it out from underneath the DU-HA and set it closer towards the back of the cab.
- 5 Thread the nylon straps through the slots in the back of the DU-HA.
- 6 Secure each strap by threading the strap up through the bottom of the back slot of the buckle and down through the front slot of the buckle. Tighten. The nylon straps will help secure the DU-HA in the truck.
- 7 Install the foam organizer/gun racks by sliding them into the pre-cut channel slots in the DU-HA (as shown), if desired.
- 8 Set jack tools bag on ledge behind the DU-HA or inside the DU-HA if desired.

Ribs on buckle should face up. Thread strap through buckle as shown.

Safety Instructions:

Warning: Seats must be down at all times while vehicle is moving. Make sure the DU-HA is secured in vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA.

For further instructions refer to the truck owners manual or contact DU-HA, Inc.
